EDWARD YI WEI NEO

Platform & Cloud Architect | Enterprise Data Platforms | Google Cloud | Financial Services

Singapore • +65 9368 2938 • neo.yiwei@gmail.com • linkedin.com/in/edwardyiweineo

PROFESSIONAL SUMMARY

Platform and Cloud Architect at Deutsche Bank, responsible for enterprise data platforms supporting a global bank's private banking and wealth businesses. Eight years of progressively senior ownership spanning enterprise data warehousing, cloud solution architecture and the full software development lifecycle, advancing from Graduate Engineer through Lead Engineer and Solutions Technical Architect to AVP. Built and governed the regional data mart underpinning regulatory, transactional and audit reporting for Wealth Management APAC, then architected Google Cloud data solutions for the Private Bank. Recognised internally with the Top Performing Employee award (2019) and Deutsche Bank Recognition Awards (2019, 2021). Combines commercial and analytical grounding (UNSW Bachelor of Commerce) with hands-on engineering discipline (Diploma in Information Technology) to turn regulatory, risk and commercial requirements into reliable, auditable systems that scale.

PROFESSIONAL EXPERIENCE

Platform Architect (AVP), One Data Platform — Google Cloud
Deutsche Bank, Singapore | Jan 2026 – Present

- Hold architectural ownership of the bank's **One Data Platform Harmonised and Access Layer (OneDP HAL)** — the data harmonisation and governed access tier serving the firm's private banking and wealth business lines.
- Serve as the **Google Cloud architect for the One Data Platform**, converting regulatory, risk and commercial requirements into resilient, scalable cloud architecture on GCP for data-intensive financial workloads.
- Define the target architecture and operating model for the platform, aligning platform capability with the bank's data strategy and regulatory obligations.
- Partner with data, engineering, risk and compliance stakeholders so platform designs meet the bank's standards for security, governance, auditability and regulatory scrutiny.
- Lead solution design across the full **software development lifecycle**, from requirements and process automation through implementation, testing and production support.
- Coach and coordinate delivery teams and cross-functional stakeholders to land platform work to agreed quality and schedule.

Solutions Technical Architect / Lead Engineer / Graduate Engineer
Deutsche Bank, Singapore | Jun 2018 – Mar 2026
Data — Private Bank (Google Cloud) • International Private Bank • Wealth Management APAC (Regional Data Mart)

- Built and continuously evolved the **regional data warehouse** underpinning regulatory, transactional and audit reporting across Wealth Management APAC and the Private Bank.
- Architected data models, pipelines and reporting layers that converted fragmented, manual reporting into **reliable, repeatable and auditable data flows**.
- Led solution design and delivery across the complete **software development lifecycle** — requirements, process automation and improvement, implementation, testing and support.
- Architected **Google Cloud data solutions** for the Private Bank, translating business requirements into secure, governed and operationally sound cloud deployments.
- Coordinated upstream and downstream stakeholders, delivery teams and technology partners to land data and cloud solutions to agreed quality and schedule.
- Introduced modern tooling and agile engineering practice, including Alteryx automation, improving the throughput and productivity of the wider data team.

AWARDS & RECOGNITION

- **Deutsche Bank Recognition Award** — 2021
- **Deutsche Bank Recognition Award** — 2019
- **Top Performing Employee** — Deutsche Bank, 2019; participant in the Alteryx Hackathon, 2019
- **Most Outstanding Specialist Commander** — Singapore Armed Forces, 2014

CORE COMPETENCIES & TECHNICAL SKILLS

Architecture & Data: Platform Architecture • Cloud Solution Architecture • Enterprise Data Warehousing • Data Strategy • Data Modelling • Architecture Blueprints • Target Operating Model • Solution Design & Systems Implementation

Delivery & Governance: Software Development Lifecycle (SDLC) • Regulatory, Transactional & Audit Reporting • ETL & Data Pipelines • Process Automation & Improvement • Project & Programme Coordination • Upstream / Downstream Stakeholder Management • Vendor & Partner Management • Agile & Scrum (PSM I)

Cloud & Tools: Google Cloud • Alteryx • SQL / PL/SQL • Python • Java • JIRA • Confluence • IBM uDeploy • Git / Bitbucket • IntelliJ • Eclipse • TeamCity • Xcode • Excel & PowerPoint

CERTIFICATIONS & EDUCATION

Professional Scrum Master™ I (PSM I) — Scrum.org | 2021

Bachelor of Commerce — International Business & Marketing — University of New South Wales, Australia | 2017

- Program Coordinator for the Global Business Leadership Program (UNSW, 2016) and participant in the Global Business Leadership Program at Zhejiang University, China (2016).
- Led primary market research for a leading local F&B business; maintained a strong weighted average mark throughout.

Diploma in Information Technology — Solutions Architect — Ngee Ann Polytechnic, Singapore | 2012

- Chairman of the InfoSec Special Interest Group and organising committee member of the ICT Special Interest Group; selected for the India Immersion Programme; Silver Award for Extra-Curricular Activities (2012).

O-Level Certificate — Queenstown Secondary School, Singapore | 2008

- Gold Award for Extra-Curricular Activities and Sports Leadership Award (2008); Outward Bound Singapore Leadership Programme.

EARLIER EXPERIENCE

Co-Founder & Director — Heartcode Pte Ltd, Singapore | Jan 2012 – Jul 2014

- Founded and directed an IT consultancy delivering technology and CRM solutions for non-profits, building mobile applications pro bono; owned the full development, systems analysis, design and IT support cycle.

3rd Sergeant Commander, UAV Commander — Singapore Armed Forces | Sep 2012 – Sep 2014

- Commanded an Unmanned Aerial Vehicle specialist platoon; awarded the **Most Outstanding Specialist Commander** (Jun 2014); served as Security Commander for the Army Half Marathon 2014 and officer-in-charge of major unit ceremonies.

Business Technology Intern, Quality Assurance — Great Eastern Life, Singapore | Sep – Nov 2014

- Supported implementation of a customer database in the Loyalty Department; designed test use cases and ran black-box, pre- and post-implementation testing; liaised with business stakeholders and IT ahead of go-live.

Research Lead — Digital Navigation for the Blind — Ngee Ann Polytechnic, Singapore | Sep – Nov 2012

- Led a TOTE Board-funded research project on navigation algorithms for the visually impaired; partnered with Dialogue in the Dark and visually impaired personnel, and presented findings to stakeholders.

Event & Operations Executive — Les Thespians Production House, Singapore | Sep 2009 – Nov 2011

- Delivered two years of events management liaising directly with corporate clients; trained as stage, sound and lighting manager, served as assistant instructor, and attended theatrical management training in Hua Hin, Thailand.

LANGUAGES & VOLUNTEERING

Languages: English (fluent written & spoken) • Mandarin (native speaker) — bilingual professional communication across English and Chinese business environments.

Volunteering: Trybe Ltd (2011 – 2016) — motivational workshops and tuition for secondary students, youth-at-risk programmes, and tuition at Boys Home, Boon Keng. Leadership and service roles with Rotaract Club UNSW and AIESEC UNSW.
